

## COVID-19 Response Statement

As you are all aware, we are currently facing a difficult trial as a nation which is affecting businesses, communities, churches, and families in many difficult ways. We at PMBC have been following the situation and will continue to keep up to date on Federal, State, and Local authorities guidelines on handling this situation.

As of now, PA Governor Tom Wolf has declared all non life sustaining businesses are mandated to close for an undisclosed period of time. Only select services are still available and although our category of recreational camps and hospitality are still authorized to function, we are limited by the social distancing protocols put in place for, at least, the next 15 days.

We are currently taking our time to analyze the situation and follow the timelines in place as we continue to reevaluate the impact on our retreat groups and summer camping programs. As new information becomes available, we will adapt our plans we have created according to current situations.

Our hope is to return to more normal services near the end of April, if circumstances allow. This means we are still planning on retreats at the end of April and through May. We are also continuing to plan for 2020 summer camp with preparation for potential late starts or a limited camp season. We are working on each individual case regarding refunds, deposits, and future opportunities. Under the circumstances that we are mandated by the state to cancel retreats or summer camp sessions, we will work to return all deposits and payments or transfer them to a future session.

Please be patient as we continue to monitor the situation so that we can make the best decision for you, your family, and this organization as this situation continues to develop. We will update you with new information in 15 day increments as things progress and timelines become more clear

If you have any specific questions in response to this information or your reservation, please e-mail [information@camppmbc.com](mailto:information@camppmbc.com)
